## **Bangkok Aviation Fuel Services Company Limited (Public Company)**

### **Sustainable Procurement Policy**

Bangkok Aviation Fuel Services Public Company Limited (BAFS) and its subsidiaries conduct business with the primary objective of achieving effective supplier management as a key mechanism to support business operations. The Company places strong emphasis on service quality delivered in accordance with the highest safety standards, as well as transparent and fair procurement practices, in order to support the operations and business activities of the Company and its subsidiaries in alignment with the principles of sustainability.

Accordingly, the Company has established the Sustainable Procurement Policy as follows:

- 1) Conduct procurement activities based on sustainability principles, through ethical, transparent, and socially responsible supplier management, in accordance with good corporate governance and anti-corruption principles, while adhering to international standards of quality and safety, in order to create long-term value for the business.
- 2) Ensure that procurement processes comprehensively address quality, service, pricing, and delivery timelines, with responsiveness to stakeholders, by minimizing negative impacts and enhancing efficiency and effectiveness, while taking into account social and environmental responsibilities.
- 3) Assess and manage risks throughout the procurement process to ensure efficiency throughout the supply chain.
- 4) Carry out procurement activities in a transparent, fair, and auditable manner, in compliance with human rights principles, applicable laws, regulations, requirements, and relevant standards.
- 5) Promote the procurement of environmentally friendly products and services, and support manufacturers and service providers that utilize resources efficiently, reduce environmental impacts, and comply with applicable environmental laws and regulations.
- 6) Disclose procurement-related information accurately, completely, and clearly, and promote open communication by encouraging feedback, suggestions, and opinions from partners.

All executives and employees of the Company and its subsidiaries are responsible for supporting, promoting, and complying with this Sustainable Procurement Policy, as well as the related procurement management framework.

Effective 1 May 2019

-Signed-

M.R. Supadis Diskul

Executive Chairman
